**CONTEXT METRIC 1: ENROLLMENT (Unduplicated Headcount)**

Enrollment is based on Summer , Fall and Spring.

For Summer First time and continuing, Full Time students are >=9.

For Fall & Spring First time, Full Time students are >= 12.

Transfer students include only first-time/full-time no Continuing .

Pell reciepients at any time: An undergraduate student is considered a Pell Recipient at any time if the student received a Pell grant at any time during the student's undergraduate tenure.

Pacific Islanders are group with Asians.

For reporting purposes Northern New Mexico College (NNMC) is being reported under Two year as it became a four year in 2005 but was still geared towards a two year.

Age is not reported for some institution and therefore the sum of all ages in some cases does not add up to the total.

**CONTEXT METRIC 2: COMPLETION RATIO**

UG FTE is based on Undergraduate students (less than Master's Level includes concurrent enrollment) .

FTE is calculated by dividing the total number of SCH (i.e 30 for UG for AY 08-09 (including Summer 08, Fall 08 and Spring 09).

If a student is enrolled in 0 credit hours classes then they may not be included in FTE calculation.

Second column includes all undergraduate degrees including certificates, associates, bachelors.

Relevant Comments:

Data includes all types of certificates that are less than 1 yr old (due to time constraints certificates of less than 1 yr have not been accounted for Economic Value with Industry Certificatio or Licensure).  
 Data includes duplicated degrees awarded at the institution. (in future, NM will report unduplicated degrees to show only the highest degree earned by student in a given year).

**OUTCOME METRIC 4: TIME and CREDITS TO DEGREE**

Relevant Comments:  
 Outcome Metric 4: Average Length of Time to Degree (Years)  
 NMHED previously discussed with the folks at CCA that our state data system does not provide this information prior to fall 2010. CCA is again asking that we collect summary data from the individual institutions for this data with the reporting methodology. However, we expressed to them that this would be a very labor intensive project. We will address this issue in our proposal and make a plan to collect the missing data in the future, if possible.  
 Outcome Metric 4: Time to Degree Average Number of Credits Accumulated to Degree  
 This metric has been calculated based for bachelor's and associates within 150% time frame. For certificates, a 200% time frame is given.  
 For Bachelor's degree, a student who received a degree in AY2008, was tracked back six years (AY2003 or later as a first time freshman, undergraduate)  
 For Associate's degree, a student who received a degree in AY2008, was tracked back four years (AY2005 or later as a first time freshman, undergraduate)  
 Following is the Total time to Degree if the data is not divided by Full Time, Part time and Transfer.  
 Transfer for Bachelor's degree has been calculated as one category transfer and not broken down by how many credit hours the student had at the time of transfer. Pacific Islanders are group with Asians.

If cell size is '10' or less, suppress the data and report 'DS'. If data is not available, report 'NP'. If value is '0', report '0'.

**PROGRESS METRIC 3: SUCCESS IN GATEWAY (FIRST-YEAR) COLLEGE COURSES**

NMHED does not have any completion data prior to Fall 10. Success is being measured only if the student does not take the remedial class the next semester.  
 For reporting purposes Northern New Mexico College (NNMC) is being reported under Two year as it became a four year in 2005 but was still geared towards a two year.  
 Age is not reported for some institution and therefore the sum of all ages in some cases does not add up to the total.  
 Any students that took remediation under '32' cip code has been used for reporting purposes. Institutions might be using more specific courses as remediation.

# PROGRESS METRIC 4: CREDIT ACCUMULATION

**Relevant Comments:** **Progress Metric 4 -- Credit Accumulation**  
 \* There will be shift in ethnicity from the entering cohort as students could report different ethnicities in fall and spring.  
 \*\*Age for DHS is more than fall cohort as it is cumulative for fall and spring.  
 For reporting purposes Northern New Mexico College (NNMC) is being reported under Two year as it became a four year in 2005 but was still geared towards a two year.  
 Age is not reported for some institution and therefore the sum of all ages in some cases does not add up to the total.  
 Any students that took remediation under '32' cip code has been used for reporting purposes. Institutions might be using more specific courses as remediation.

Comments:

**PROGRESS METRIC 6: COURSE COMPLETION**  
 NMHED does not have any completion data prior to Fall 10. It is hard to determine Number of Credit Hours Completed.

If cell size is '10' or less, suppress the data and report 'DS'. If data is not available, report 'NP'. If value is '0', report '0'.
